1) How does the website portray the intended Idea? Is it clear what the website is about?
It is relatively clear. The slideshow was confusing at first but makes sense, it is a small show of things he likes and cares about.

2) What was your very first impression on this website?
Simple. A bit empty even.

3) What do you like about this website?
It is not an overcluttered mess.

4) Describe the overall tone, design, use of color, images, layout, etc
Tone is calm, nothing screams or jumps out at me. Layout is reasonable, takes on an old internet look.

5) Describe the website navigation, is it easy, hard, and room for improvement?
Navigation is easy.

6) What suggestions can you offer to improve this website?
Fill some of the space, put something else on homepage. Contact me can maybe look better, about me is a bit empty.
