

## **Website Review Form:**

Thank you for taking your time to help, Christiano Carta with their Web Development final project. A second set of eyes always helps. – prof.gruhn

Website Idea & Goal: Resume and portfolio

Website URL: <http://csc06.simplystreet.com/project/hobbies.html>

Student Name: Christiano Carta

Review Date: 5/6/2022

Reviewer Name: Joseph Carta

Reviewer technical level: High

### **1) How does the website portray the intended Idea? Is it clear what the website is about?**

**The website does a good job portraying the intended idea of providing a resume and other information about the student. It is clear what the website is about because it has dedicated sections for different information about the student.**

### **2) What was your very first impression on this website?**

**My first impression of the website was that it was simplistic. It isn't cluttered with text which is a good thing.**

### **3) What do you like about this website?**

**I like the soft color of the background. I also like that pages with text are not too cluttered with information and only tell the reader what they need to know.**

### **4) Describe the overall tone, design, use of color, images, layout, etc**

**The overall tone of the website is minimalistic. There is not much more than there needs to be. The soft color of the background is pleasant to look at while navigating. The navigation itself is also very simple.**

### **5) Describe the website navigation, is it easy, hard, and room for improvement?**

**The navigation of the website is very easy, with all of the section headers at the top. One thing that could be improved is the resume not opening another tab and keeping it on the website page.**

**6) What suggestions can you offer to improve this website?**

**While the website is not over cluttered, it sometimes seems that there is too much empty space. I would suggest trying to fill it with photos, or putting multiple sections on one page if they are small enough. For instance, the about me section could also probably fit on the home page.**
